MANISH VENKATARATHNM

Bangalore, Karnataka| manishvenki07@gmail.com | linkedin.com/in/manishvenki/

OBJECTIVE

Beginner in cloud technologies with a strong interest in learning modern tools and platforms. Experienced in managing and coordinating academic projects effectively. Skilled in frontend development with hands-on experience in building user interfaces. Seeking an opportunity to grow, contribute, and apply my skills in a professional environment.

TECHNICAL SKILLS

- Cloud Computing Basic
- Web Development
- Angular & Tailwind CSS
- Git / GitHub
- Python (Intermediate)
- UI-UX Designing (Beginner)

PROJECTS

Atlas Travel App

- Built a user-friendly Atlas Travel App using Kotlin and XML, focusing on clean UI and smooth navigation.
- Integrated Firebase Realtime Database to store and manage place details, trip categories, and admin-side data.
- Designed structured place information using your Place object model, ensuring organized data flow and easy destination exploration.

Oriel Cafe Management

- Built the Oriel Café Management System as a duo project using HTML & CSS for a clean, responsive, and user-friendly interface.
- Developed backend operations with Node.js, jointly handling orders, menu updates, and customer interactions smoothly.
- Integrated MongoDB for secure, scalable storage of menu items, orders, and café data, ensuring efficient management.

Gear-Go Logistics

- Built a basic Gear-go Logistics frontend using Angular and Tailwind CSS with a clean and simple UI during the KJU internship period.
- Collaborated with the backend team and integrated the frontend with their Node.js APIs for logistics operations.
- Backend utilized MongoDB for storing logistics data, and we handled the basic integration from the frontend side.

Personal Portfolio

- Created a personal portfolio website using HTML and CSS during the internship period at Velozion Technologies.
- Designed a clean, responsive layout to showcase skills, projects, and contact details professionally.
- Focused on improving UI design, structure, and frontend development practices through hands-on internship experience.

CERTIFICATIONS

- Introduction to Cloud Computing (2025)
- Google Cyber Security (2024)
- UI Path - AI Agent and UI Studio (2025)
- Microsoft Azure Fundamentals (2024)
- Oracle Cloud Infrastructure (2025)

EDUCATION

Msc Computer Science   **2024 - Present**

    Kristu Jayanti (Deemed to be University) , Bengaluru

Bachelor of Computer Applications   **2021- 2024**

    Kristu Jayanti College(Autonomous) , Bengaluru

CEBA - Class XII   **2020 - 2021**

    Evershine Composite PU College, Bengaluru

SSLC - Class X   **2018 - 2019**

    St Anthony's Boys School, Bengaluru

INTERNSHIP EXPERIENCE

Frontend Intern - Software Development Cell (KJU)   **June - July 2025**

- Worked as a Frontend Intern at KJU, learning the fundamentals of the Angular framework and TailwindCSS.
- Gained hands-on experience in building modern, responsive UI components with clean design practices.
- Collaborated with the backend team, understanding API integration and overall project workflow

Web Developer Intern - Velozion Technologies   **June - July 2024**

- Worked as a Web Developer Intern at Velozion Technologies, learning HTML, CSS, and JavaScript from scratch.
- Built simple web pages and strengthened your understanding of frontend development fundamentals.
- Gained real-time exposure to how web development workflows operate in an office environment.

July- December 2024

UI UX Design Intern - STACKZERO

- Completed a UI/UX Design Internship at STACKZERO, gaining hands-on experience in designing modern, user-friendly interfaces.
- Participated in all assigned tasks, showcasing strong work ethic, creativity, and team collaboration skills.
- Improved understanding of the complete design workflow, from research and wireframing to final UI creation.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
